

## ARMATEX 100% ACRYLIC TEXTURES

### Leveling Base Coats

Armatex Highbuild Acrylic Render  
[high build skim coat]

Armatex Pre-patch Medium  
[fine skim coat]

Armatex Pre-patch Coarse  
[coarse skim coat]

### Armatex Trowel-on Textures

- Traditional
- 1mm Swirl
- 2mm Swirl
- Velvet

- Coral
- Light Stone
- 2mm Drag
- 9mm Drag

### Armatex Roll-on Textures

- R-50 Rolana
- R-50 Coarse
- Stippled Cream Medium
- Stippled Cream Coarse

- R-50 Medium
- 9mm Roll-on
- 9mm Flattened

Armatex Textures are a 100% Acrylic fully water reducible paste. The product is formulated as a ready to use material that can be applied straight from the drum to your suitably prepared wall. Common to all Armatex finishes are carefully graded washed and dried sands blended with Astec second generation acrylics to form a flexible product that is extremely well bound and will not crumble even when it is feathered to a fine edge. Armatex provides a strongly adhered film with outstanding exterior durability. Armatex has undergone rigorous field and laboratory test programs that guarantee the tradesman a product that is fast and trouble free to apply, ensuring a uniform end result.

## INTERIOR DECORATOR FINISHES

Full range of luxury interior wall finishes:

- Acrylic Undercoat
- Bathroom Tuff
- Ceiling White
- Crystal Gloss Acrylic
- Low Sheen Vinyl
- Matt Vinyl
- Mirra-Sheen Enamel
- Satin Acrylic
- Oil Based Undercoat

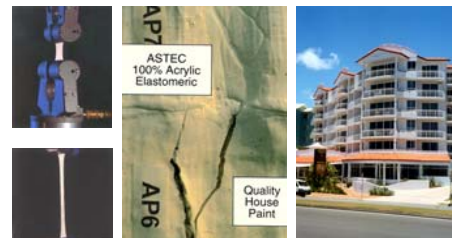

## PROTECTIVE EXTERIOR COATINGS

Astec Second Generation 100% Acrylic crack bridging membrane with outstanding anti-carbonation properties for long term protection and waterproofing of masonry structures.

Unique to EC-2000 is Astec's surface curing technology reducing environmental dirt pick-up.

Astec Elastomeric wall coatings possess the ability to bridge a forthcoming crack 4.9 times its dry film thickness. 350 microns will accommodate a crack of 1.75mm. Substrates include tilt-up construction, rapid wall systems, concrete block work etc.

## ROOFING SYSTEMS

### Astec Seamless Elastomeric Metal Roofing Systems:

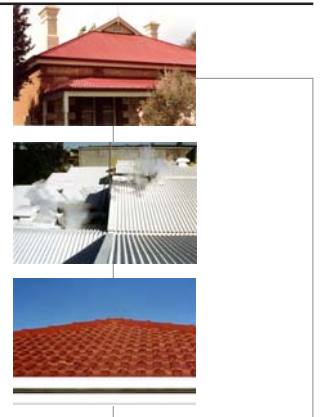

- Rustraint • B-16 Primer • WPM-8 • Sontara Tape
- EC-100 Elastomeric top-coat

### Astec Asbestos Restoration System:

- Barrier • Rivett • WPM-8 • Sontara Tape
- EC-100 Elastomeric top-coat

### Astec Cement Tiled Roofing System:

- Barrier • Tile Sealer • Cap Sealer • Solaflex

## POLYURETHANE SEALANTS

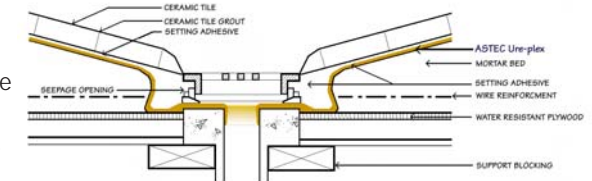

**Ure-Seal** is a fast curing single part polyurethane joint sealant suitable for:

- internal and external joints • wood joints • most metals • enamelled substrates • concrete • masonry • brick • plastics • shower recesses bathroom detailing prior to membrane placement •

**Ure-plex** is a single pack moisture cure polyurethane waterproof membrane. The cured film forms a one piece waterproof skin that is formed in situ.

- concrete • cement render • block work • plaster board • plywood • fibre reinforced cement sheeting •

SHOWER DRAIN DETAIL WITH SAND/CEMENT PRE-FLOAT

## WATERPROOFING SYSTEMS

Astec Elastomeric Waterproof Membrane Systems are durable, flexible to -30°C, resistant to U.V degradation, ponded water and many industrial chemicals.

The membrane can simply be sprayed, brushed or rolled on to the existing or new roof, plywood deck, concrete deck, flashing or box guttering.

- Barrier - industrial anti-mould solution
- WPM-8 - acrylic waterproof membrane base coat
- Sontara - reinforcing polyester tape
- EC-100 - acrylic elastomeric coating

## CONCRETE REPAIR SYSTEMS

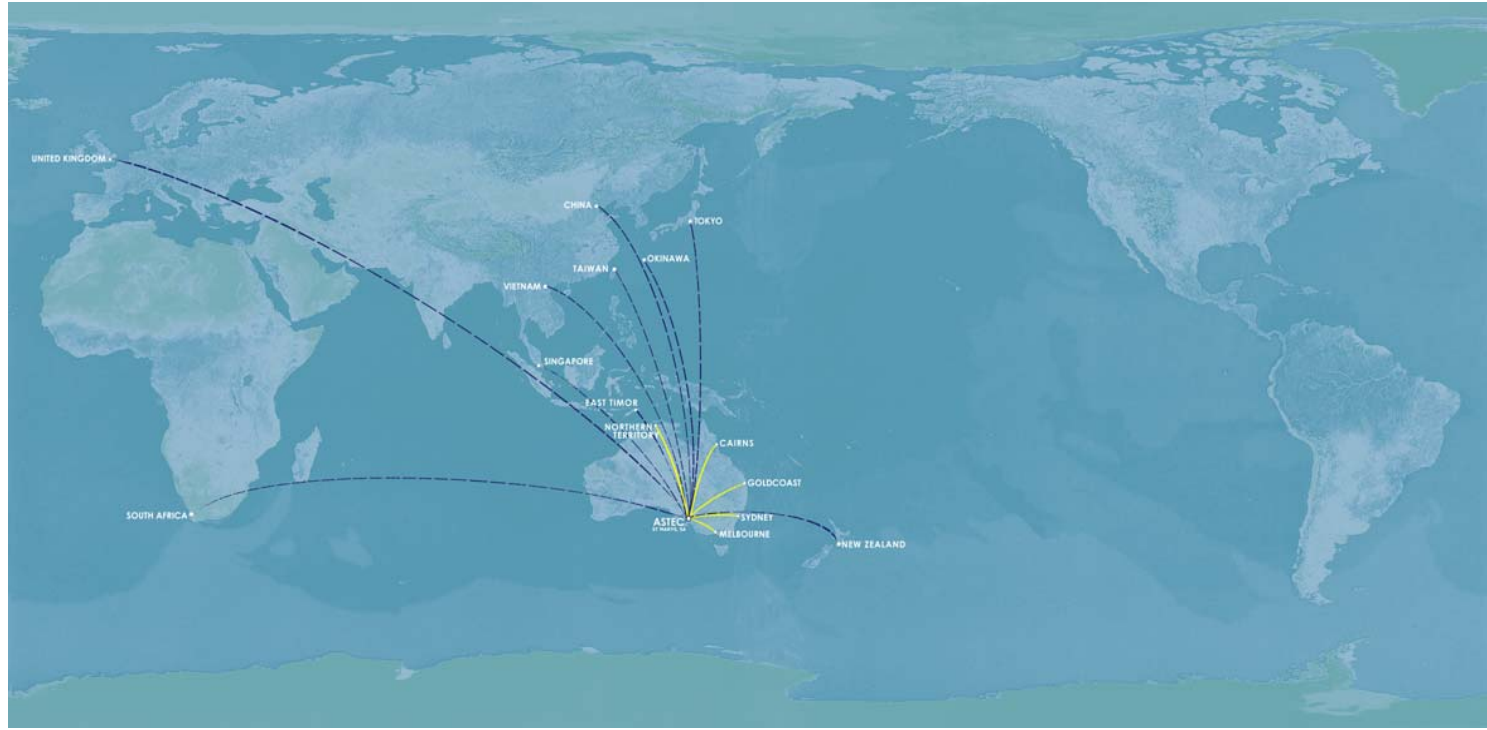

### Astec concrete repair products:

- Rustraint - Rust inhibitor
- B-16 Anti-corrosive Primer - Anti-corrosive primer
- Dehydrocrete C.R. Primer - Acrylic binder and sealer
- Dehydrocrete Repair Mortar No.50 - Repair for depths 10-50mm
- Barrier - Industrial anti-mould solution
- Armatex Pre-patch Medium - Patching compound for 2-3mm
- Armatex Pre-patch Coarse - Patching compound for 2-5mm
- Rivett - Acrylic sealer binder
- EC-2000 - Elastomeric Coating
