

(TECHNICAL BULLETIN)

HIGHLY ADHESIVE GLUE FOR CONSTRUCTION AND FURNITURE INDUSTRIES
ASTEC IS COMMITTED TO ONGOING RESEARCH AND DEVELOPMENT

Ure-plex T

Ureplex T is an identical product to the normal Ureplex range. The only difference is that the slump resistance and viscosity of the product are changed to accommodate the requirements of timber floor adhesive applications.

The principal use of the product is as a highly adhesive glue for the construction and furniture industries.

Principal applications are:

- Elastic adhesive for floating timber floors
- Adhesive for laminates in the furniture industries.
- Adhesive for ceramic tiles
- Adhesive for ceramic tiles in swimming pools (Chlorine and Acid resistant glue)

Chemical resistance, application data and product performance are the same as Ureplex specifications.

Astec Paints are a 100% Australian owned company committed to the research and development of technologically advanced coatings that provide premium durability against our harsh Australian conditions. Our coatings are manufactured with high regard for worker safety and environmental care and will provide you with absolute confidence in long term performance.

The technical data furnished herein is based upon data believed by Astec Paints to be true and accurate at the time of writing, however, no guarantee of accuracy is given or implied and is subject to change without notice.

This information is given in good faith for the assistance of users. No legal warranty expressed or implied is made as to its accuracy, completeness or otherwise.

Every person dealing with this material herein does so at their own risk absolutely and must make independent determinations of suitability and completeness from all sources to ensure their proper use.

We have no control over the condition under which these products are stored, handled or used, therefore our recommendations must not be regarded as a mounting to legal warranty or as involving any liability on us.
