

Energy Star Coatings are available in the following exterior colours.

The numbers next to each colour chip represent the Total Solar Absorbance S.A. of the colour in Energy Star products. The number in parenthesis represents the Total Solar Absorbance of a standard exterior acrylic of the same colour.

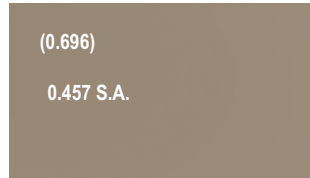

The total Solar Reflectance (TSR) and Solar Reflectance Index (SRI) were independently tested and verified by external laboratories, in accordance with ASTM E 1980-01, thereby providing S.A.'s for each colour, as stated in the CodeMark Certificate.
